Experience the full circle of Iceland's wonders on the Elemental Iceland - Circular Saga cruise, departing from Reykjavík with HX Expeditions on the 500-passenger *MS Fridtjof Nansen*. This journey starts from the vibrant culture of Iceland's capital region and quickly moves into the raw, untamed beauty of its fire and ice sculpted landscapes. After a land-based pre-tour in the famed "Golden Circle", we will circumnavigate one of the world's youngest countries to witness its many and varied natural contrasts—from active volcanoes and powerful geysers to majestic glaciers and waterfalls. This is your chance to see Iceland's legendary puffins and whales up close and experience a land where modern life manages to coexist alongside active primordial forces of nature.
